ANTI-BULLYING POLICY

Policy Reference/Version – 1003-4

Policy

It is the right of all members of the school community to feel safe and to experience school as a safe, supportive and peaceful place for learning. Bullying behaviours are therefore treated with the utmost seriousness. The policy is designed to create a safe and supportive community based on Christian principles and fair and just treatment for all in the community.

Purpose

To provide a framework for our College community to work together to identify and address issues of student bullying in order to build respectful relationships and sensitively respond to the needs of each person. Bullying and cyber bullying conflict against the core values of our Catholic faith which we recognise, can adversely affect the wellbeing of all students and therefore deemed unacceptable.

Our purpose is also inclusive of enabling staff to respond effectively to any incident of bullying and to process student grievances and to achieving restorative justice and conflict resolution in this Brigidine community.

Guiding Principles

1. Students and staff are aware of what constitutes bullying behaviours

The following patterns of behaviour may constitute bullying (the list is not exhaustive):

- The deliberate social isolation of a student by another;
- Negative personal comments, especially those made regarding appearance;
- The use of offensive language, so as to intimidate;
- Pushing, hitting or otherwise touching another student with the desire to intimidate;
- Threatening physical attack while at school or travelling to and from school;
- The surrounding of a student by others, so that the individual feels threatened or unsafe;
- Making unwelcome contact with another student through social networking sites, phone calls, SMS or by email;
- Spreading hurtful and or untrue stories about another person;
- Invading the personal space of another with the intention of intimidation;
- Exhibiting territorial behaviours with regard to use of recreational areas;
- Wilfully hiding the possessions of another student;
- Making derogatory remarks regarding the socio-economic status, cultural or racial

background of another student;

- Loud and offensive behaviour on public transport directed at others;
- Denigrating the personal interests of others, whether in academic achievement, sport, music or community activities.

2. Students and staff are aware that bullying behaviours are unacceptable

- Students are aware of the College's policy on Student Behaviour Management Chart as part of their Wellbeing program.
- Staff are aware of the policy through induction programs and the College Policy site.
- Staff encourage those in their care to disclose bullying behaviours which they have witnessed or to which they have been subjected, so that a culture of disclosure is accepted.
- Staff on playground duty are alert to bullying behaviours, intervene and report if they witness such a situation.

3. Parents are aware that bullying behaviours are unacceptable

- Parents are informed of the policy via the student planner, Brigidine 'Matters' newsletter and the parent handbook.
- A copy of the policy is available to parents on the website.
- Parents encourage their daughters to talk to them about their social life at school.
- Parents are encouraged to report to the Year Coordinator and/or Director of Student Wellbeing any incidences of alleged bullying behaviours to which their daughter may have been subjected.

4. Action will be taken to protect students who are bullied

- Staff will take seriously any reported incident of bullying.
- Year Coordinators and the Director of Student Wellbeing will be made aware of any such reports and will take appropriate action, including counselling, for all involved.
- Students who are reasonably thought to have been involved in an incident of bullying will be interviewed by their Year Coordinator and Director of Student Wellbeing.
- Serious incidents shall be brought to the attention of the Director of Student Wellbeing and Principal.
- After preliminary investigations take place, students who are suspected of bullying may be suspended from the College.
- Parents of students who are thought to be involved in incidents of bullying shall be interviewed at school.
- Repeated episodes of bullying could result in the termination of enrolment for those found to be intimidating others.

5. Students will be given the opportunity to learn behaviours which discourage bullies

- Students who experience social difficulties will be counselled on the types of behaviour which may attract bullying.
- Students who have been subjected to bullying will be assisted to develop the skills and resilience to resist such behaviours.
- Students will be encouraged to learn the skills of peer mediation.
