

ABC OF ENDANGERED

Introduction

Welcome to the third edition of ABC of Endangered, a continued showcase of the creativity and awareness shown by our Year 8 Visual Arts students at Brigidine College St Ives.

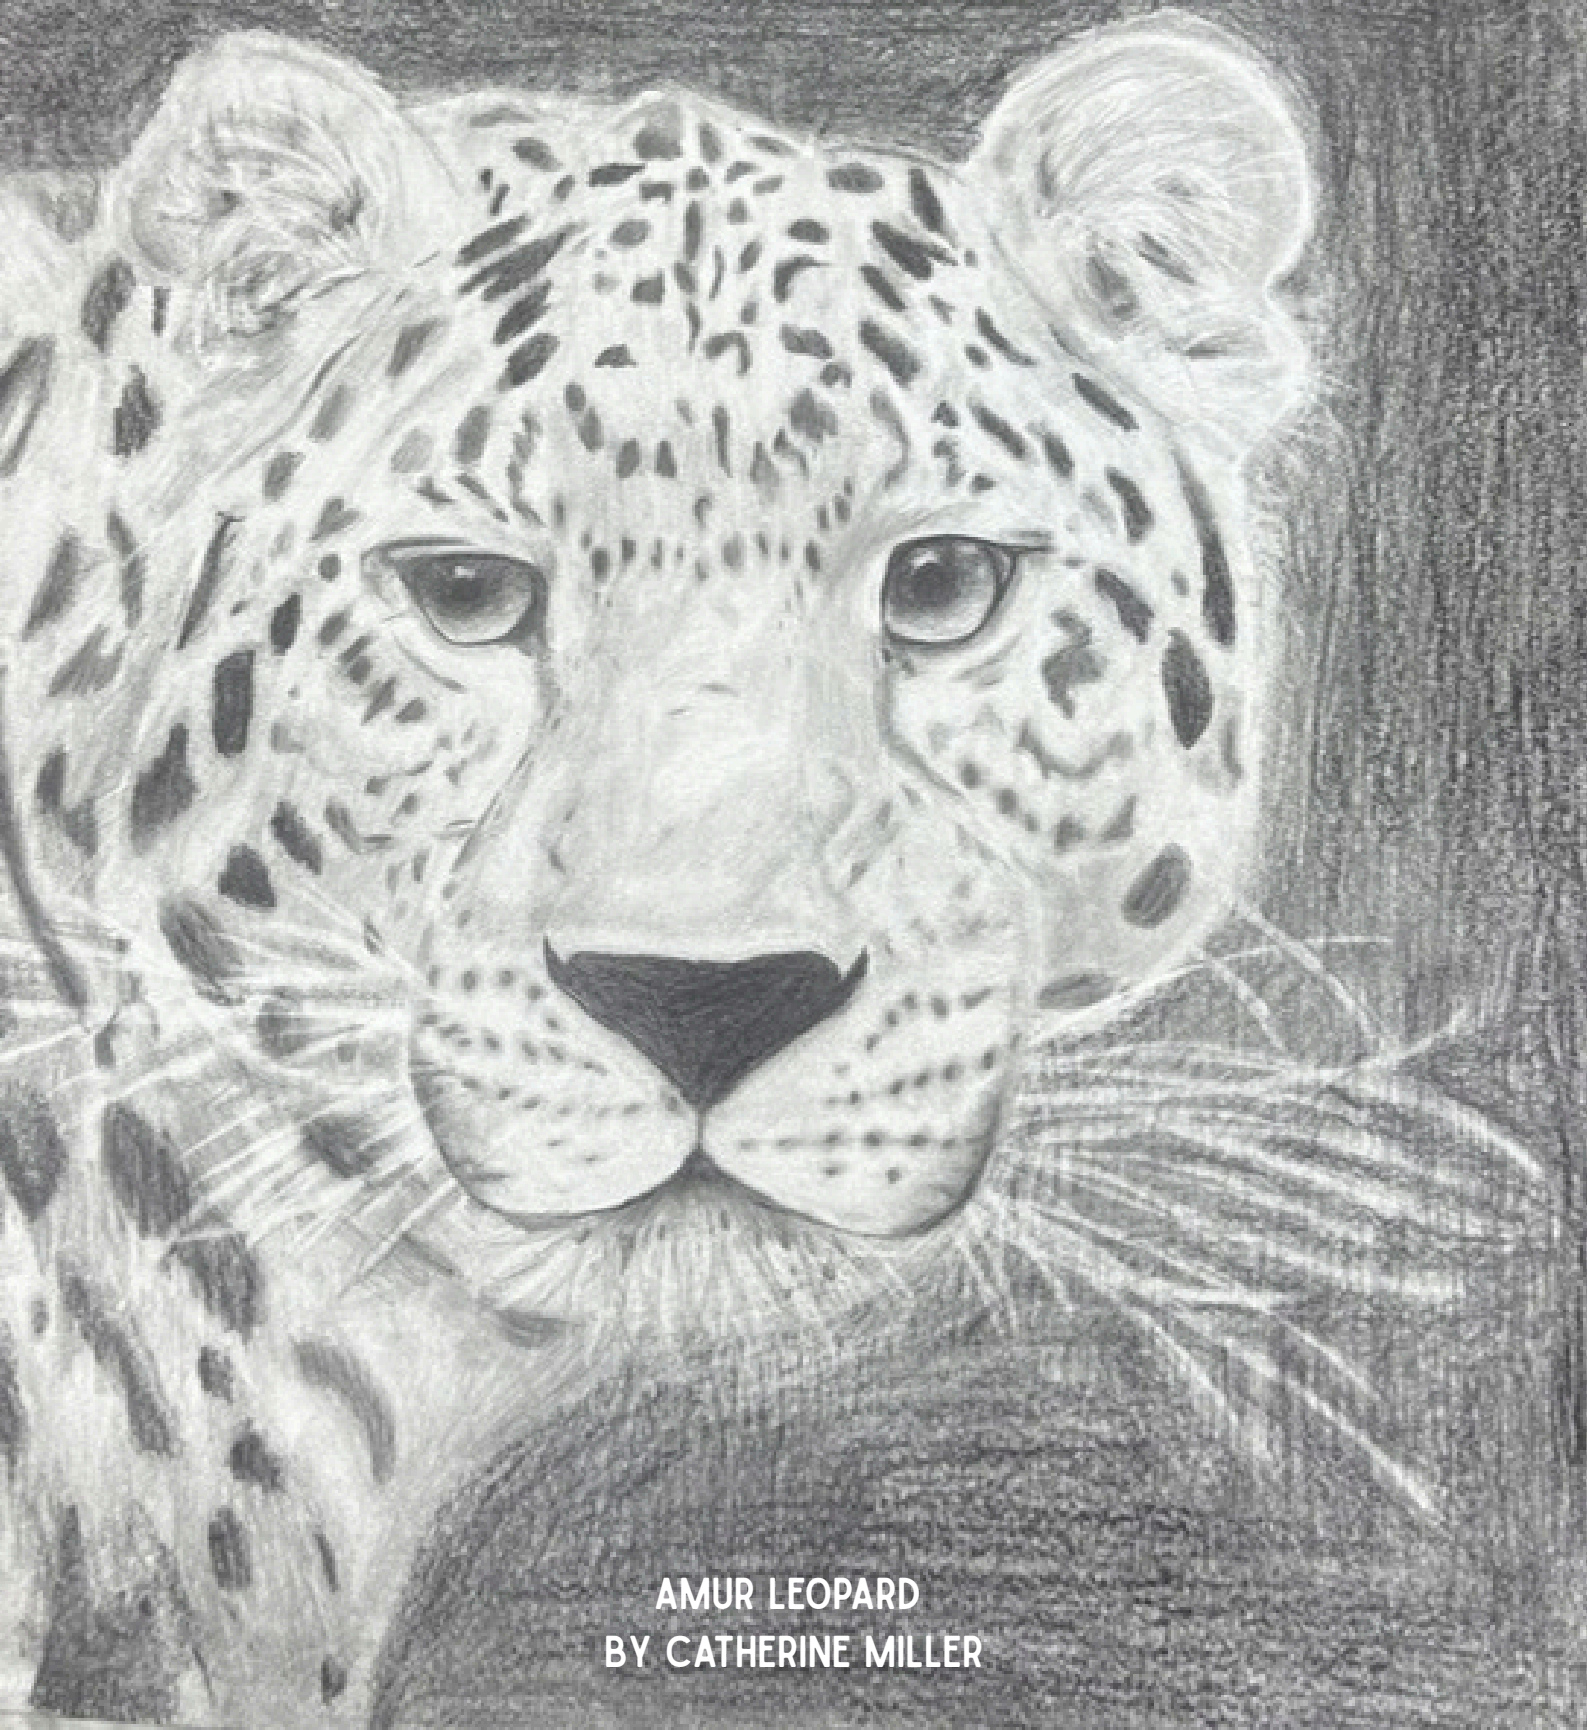

Each drawing in this publication has been carefully rendered in graphite, depicting endangered animals with precision and empathy. Inspired by the work of Lucienne Rickard, students use their art to highlight the fragility of wildlife and the urgent need for conservation.

This edition reflects both artistic growth and a deepening understanding of our shared responsibility to protect the planet's biodiversity. Thank you for supporting our students as they use their art to advocate for a more sustainable future.
